

DEEPSEC

Nov 2009
Triple Sec

The Third Annual In-Depth Security Conference
in Vienna, Austria
November 17th-20th 2009

About DeepSec

Bringing together the world's **most renowned security professionals** from academics, government, industry, and the underground hacking community.

The DeepSec Conference is the international event in the heart of Europe to meet, discuss, exchange and learn about **IT and network security**. Two days of cutting edge workshops and two days of conference with social events and "Birds of a Feather" sessions provide the environment to get in touch and keep up with the latest developments.

« Recent Speakers include:

Paul Simmonds, Jericho Forum
<http://www.opengroup.org/jericho>
