

# A How to Guide: Hunting Fentanyl Networks

WHY ARE WE HERE?

# THE BACKGROUND

**1. Early 2010s:** Fentanyl began to appear in the illicit drug market in the United States and Canada. It was often added to heroin or sold as counterfeit prescription pills, leading to a surge in overdose deaths.

**2. Mid-2010s:** The crisis escalated with a rapid increase in the production and distribution of illicit fentanyl and its analogs. This synthetic opioid is much more potent than heroin and other opioids, making it especially dangerous.

**3. Late 2010s and Beyond:** The fentanyl crisis continued to grow, with fentanyl-related overdose deaths becoming a significant public health issue. Law enforcement agencies, health authorities, and policymakers have been working to address this crisis through various means, including drug interdiction efforts and harm reduction strategies.

# PRESENT DAY

- “Xylazine is making the deadliest drug threat our country has ever faced, fentanyl, even deadlier.”
- Darkweb? No.
- Social media sites are being used by drug manufacturers to advertise their “goods”

So, how easy is it to find?

# THE TARGET

## Hanhong Pharmaceutical Technology Co., Ltd.

Founded in 2012, Hanhong Pharmaceutical Technology Co., Ltd. is a company specializing in the production and operation of pharmaceutical intermediates and chemical import and export trade.

Our company has long-term cooperation with Wuhan Research Institute and other universities, and has a sound scientific research system and quality certification system. The company has two pilot production sites, mainly engaged in the production of bulk drugs, pharmaceutical intermediates, and customized special chemicals.

After several years of operation, the products are sold at home and abroad, won numerous praise. In the future business, we will continue to adhere to the principle of heavy cooperation, keeping faith, sincerity, equality and mutual benefit, and do our best to provide you with quality services.

We sincerely welcome friends from all walks of life at home and abroad to visit us and cooperate with us sincerely.

# THE TARGET

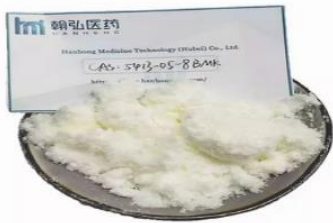

## OUR MAIN PRODUCT

Our company provides high quality pharmaceutical intermediates, chemical raw materials, chemical auxiliaries and industrial chemicals for domestic and foreign customers. All the products sold by Hanhong pharmaceutical are produced in ISO 9001 certified factories and have been passed the quality inspection by China entry-exit inspection and quarantine bureau with a 100% pass rate.

All products sold by the company are strictly prohibited for illegal use.
